Naginabagh, Ramnagar, Chandrapur - 442401

## SUMMARY

Front-End and Full Stack Web Developer with 2+ years of experience building responsive and scalable web applications using React.js, Next.js, JavaScript, HTML, and CSS. Skilled in web application development, REST API integration, database-driven applications, authentication, testing, debugging, and production deployment. Experienced with React.js, Node.js, MongoDB, PostgreSQL, Supabase, Git, and Postman, with a strong focus on application performance, API integration, user experience, and reliable software development.

## WORK EXPERIENCE

### Web Developer | Valentiz Venture Services Pvt. Ltd., Chandrapur — July 2025 - Present

- Develop scalable web applications using React.js, JavaScript (ES6), HTML5, CSS3, PostgreSQL and Supabase.
- Build responsive and user-focused interfaces based on business requirements and UI designs.
- Integrate RESTful APIs, authentication systems, and database-driven application functionality.
- Implement role-based access and secure authentication for application users.
- Collaborate with stakeholders to analyze requirements and develop application features.
- Perform application testing, debugging, QA validation, and issue resolution.
- Optimize application performance, responsiveness, and cross-browser compatibility.
- Utilize Git-based workflows for version control and collaborative development.

#### Key Project: HR Management System

Tech Stack: React.js, Supabase, PostgreSQL

- Developed an HR management platform with employee management, attendance tracking, and dashboard functionalities.
- Implemented authentication and role-based access management for different application users.
- Built reusable React components to improve application maintainability and scalability.
- Integrated database-driven functionality using Supabase and PostgreSQL.
- Tested application workflows and resolved functional, UI, and performance-related issues.

### Web Developer | Tzar Digital Marketing Agency, Mumbai (Remote) — July 2023 - Nov 2024

- Developed and maintained responsive web applications using React.js, Next.js, JavaScript and WordPress.
- Converted UI designs and business requirements into functional and user-friendly web experiences.
- Created reusable UI components and implemented responsive layouts across devices.
- Integrated APIs and dynamic content management solutions based on project requirements.
- Worked with MongoDB for backend data management in Next.js applications.
- Tested, debugged, and optimized applications for performance and cross-browser compatibility.
- Deployed and maintained websites on live production servers.
- Worked closely with design and marketing teams to deliver reliable digital experiences.

#### Key Project: TZAR Official Website

Tech Stack: Next.js, MongoDB

- Developed and maintained the company's official website using Next.js.
- Implemented responsive layouts and reusable UI components.
- Integrated MongoDB for backend data management and dynamic content.
- Tested application functionality and resolved UI and performance issues.

#### Key Project: WordPress Projects

- Developed and customized responsive business websites using WordPress and Elementor.
- Delivered modern, SEO-friendly, mobile-responsive websites for clients including:
  - Blue7Vets
  - Unazo Global
  - Mahaarajaa Life
